OBJECTIVE

Full Stack Developer and B.Tech CS graduate (CGPA 8.6) with hands-on experience building and deploying scalable web applications using React, Node.js, Express, MongoDB, and PostgreSQL. Skilled in REST API development, responsive UI design, CI/CD pipelines, and cloud deployment on AWS and Azure. Focused on writing clean, well-tested, production-ready code in Agile environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, SQL

Frontend: React.js (Hooks, Context API, Redux), HTML5, CSS3, Responsive Design, Chart.js, Bootstrap

Backend & APIs: Node.js, Express.js, REST APIs, Flask, Microservices Architecture, JWT Authentication

Databases: MongoDB, PostgreSQL, MySQL, SQL, Database Design

Cloud & DevOps: AWS, Azure, Docker, Vercel, CI/CD (GitHub Actions), Git, Postman, Agile/Scrum

EXPERIENCE

Data Science Intern | Innovate Intern

Nov 2024 – Mar 2025

- Built and maintained full stack application features using React.js, Node.js, and PostgreSQL, writing clean reusable code following SDLC and Agile/Scrum practices.
- Developed and tested RESTful APIs, implemented JWT authentication, and contributed to CI/CD pipeline automation via GitHub Actions achieving 80%+ test coverage.
- Collaborated with cross-functional teams, participated in code reviews, and deployed applications on AWS using Docker containers.

PROJECTS

ExpenseIQ — Personal Finance Dashboard

React · Node.js · Express · MongoDB · Chart.js · OCR · CSV Import · REST APIs · Vercel

- Built a smart personal finance dashboard with React frontend and Node.js/Express backend, featuring real-time income and expense tracking, interactive spending charts, OCR receipt scanning, and CSV import functionality.
- Designed and implemented RESTful APIs with MongoDB for data persistence, deployed on Vercel with responsive fintech-style UI — demonstrating end-to-end full stack development and production deployment skills.

Banking Fraud Detection & Analysis System

Python · Scikit-learn · Pandas · Flask · SQL · PostgreSQL · REST APIs · Power BI

- Developed a fraud detection system achieving 99.9% recall using Python and Scikit-learn; built Flask REST API backend with PostgreSQL and Power BI dashboards for analytical reporting.
- Designed ETL pipelines for large dataset processing and maintained full technical documentation following SDLC best practices.

EDUCATION

Centurion University | B.Tech in Computer Science | CGPA: 8.6/10

Oct 2021 – May 2025

Narayana Junior College | Intermediate | 94%

Jul 2019 – Apr 2021
